

Hints for the Pfaff creative 2124

Turn off your Pfaff creative 2124. Slide on embroidery unit. Touch the hoop select button to orient hoop. Swing embroidery arm into embroidery position.

To wind a bobbin with the embroidery unit on, first select an embroidery design, select the hoop, and place the presser foot in the embroidery position.

Lettering is so easy on the Pfaff creative 2124. Once you select settings for your lettering such as position, rotation, etc., all your settings are remembered for every letter. Easy!!

1. Select font style.
2. Use positioning arrows, rotation etc. to place the first letter
3. Select first letter, embroider
4. Select next letter, embroider
5. Continue to select letters and embroider

Tip: Sew out lettering on a fabric scrap to create a template for placement.

Tip: To baste in hoop for letters, select a large embroidery design, touch tie off, and baste in the hoop. Then select font, letter, position, and embroider.
