

STABILIZER DESCRIPTIONS & USES

Water Solubles

Aqua Magic™:

Aqua Magic was developed as a temporary backing for making lace and emblems (absolutely wonderful for lace designs). ***Ideal way to support machine embroidery on blankets, napkins, handkerchiefs or any single layer of fabric where a traditional backing would show.*** Dissolves quickly and completely with water, leaves thread soft with its natural shine and texture.

8" x 75' roll - part number – 140 000666

12" x 75' roll - part number – 140 000667

Dissolve-A-Way™:

Recommended as a ***topping for napped and looped fabric such as terrycloth and as a stabilizer for very delicate fabrics.*** Dissolves with water, fabrics must be washable.

8" x 75' roll – part number 141 000557

Vilene Sol-U-Web™:

Sol-U-Web is a water-soluble stabilizer and ***temporary adhesive for machine appliqué, embroidery and monogramming.*** ***Prevents stitches from sinking into pile fabrics such as towels and fleece,*** and wash away adhesive under appliqués. Better than other fusible applications because once ironed under an appliqué it has a strong hold, but once stitched it completely washes away leaving none of the stiffness common with other types of fusible webs. Also, perfect for any application using a water-soluble film because of its better stability. ***Quilters will love it for marking quilt designs;*** just mark the design on the Sol-U-Web, place on quilt surface, stitch on marked line and machine wash. Completely disappears without stiffness.

12" x 6 yd package – part number 140 000925

Sulky® Solvy™:

Solvy is a lightweight water soluble stabilizer. The perfect stabilizer and transfer agent that dissolves in water.

18" x 36" package – part number 7770

8" x 9 ½ yd roll – part number 140 000270

Sulky® Super Solvy™:

Super Solvy is twice as thick, heavy and strong as the original Sulky Solvy. A firm, see-through stabilizer that dissolves in water like magic. ***Perfect as a topping, pattern guide. Ideal for: monogramming,***

computerized embroidery on napped fabrics, cut work, lace work, hand-turned appliqué, quilting, faggoting, 3-D appliqué, edge work and more.

20" x 36" package – part number 140 000151

8" x 9 yd roll – part number 140 000269

20" x 25 yd bolt – part number 140 000152

Sulky® Ultra Solvy™:

Ultra Solvy is equivalent to 4 layers of Solvy ironed together. ***Perfect for lace making, dense fills, thick textures, etc.***

8" x 8 yd. roll – part number 140 000748

12" x 8 yd roll – part number 140 000749

20" x 36" package – part number 140 000747

20" x 25 yd bolt – part number 140 000780

Sulky® Paper Solvy™:

Print multiple copies of designs in copy machines, ink-jet or bubble-jet printers; trace designs using pencils or permanent-ink markers; or heat transfer designs using Sulky Iron-on Transfer Pens. ***Great for quilting templates, foundation piecing and 3-D appliqué.***

Twelve 8 ½" x 11" sheets – part number 140 000908

Stick On

Hydro-Stick™:

Hydro-Stick is for embroidery applications too difficult for traditional hooping. Embroider irregular shaped articles, **hold down slippery fabrics and eliminate permanent hoop marks**. Hydro-Stick is easy to use. Hoop a piece of Hydro-Stick with shiny side up (adhesive side). Activate adhesive with either a light spray mist or a damp sponge and simply place what you want to embroider directly on the Hydro-Stick – **eliminates the need for direct hooping**.

8" x 12 yd roll – part number 140 000664

12" x 12 yd roll – part number 140 000665

Stick-On™:

Hoop a piece of Stick-On. Score top paper, then peel away top paper to expose sticky surface. Place object on sticky surface to hold. **Holds small objects, like pockets, in place for embroidery**. Tear away excess.

8" x 75' roll – part number 141 000545

Sulky® Sticky™:

Sticky is easy to hoop with the paper side up, the way you would hoop a piece of fabric. Using a small sharp knife or straight pin, score the paper and pull it away from the adhesive layer; finger press your fabric to the Sulky Sticky. Attach the hoop to your sewing machine, and embroider. Or, using only the larger outside portion of your embroidery hoop, peel the paper backing off the sticky and stick the adhesive side to the bottom of the outer portion of your hoop. Place your fabric on the hoop and finger press to adhere. Attach the hoop to your sewing machine, and embroider. **Small items can be embroidered without basting them to the stabilizer**. Just finger press them to the Sulky Sticky. Make ready-to-wear easier to embroider; on areas like cuffs, collars, pockets and socks – just press them onto the Sticky and embroider without any additional preparation.

22 ½" x 36" package – part number 141 000484

12 pieces 7 ½" x 9" – part number 141 000485

7 ½" x 6 yd roll – part number 140 000271

22 ½" x 25 yd bolt – part number 141 000486

Cut Aways

No Show Mesh Stabilizer™:

A perfect cut away stabilizer for **blouses, sweaters and finer fabrics for a stable cut away without showing through the fabrics**. Very lightweight yet is an extremely strong stabilizer for all kinds of embroidery.

8" x 12 yd roll – part number 140 000936

12" x 12 yd roll – part number 140 000937

No Show Mesh Fusible Stabilizer™:

Soft and gentle to your skin. One of the most popular versions of No Show Mesh is the fusible version. **Stays in place** for the embroidery process and edges stay fused to fabric through machine washing.

8" x 12 yd roll – part number 140 000938

12" x 12 yd roll – part number 140 000939

Cut-A-Way Black™:

Use behind dark colored knits and stretch fabrics to eliminate any white stabilizer showing through fabrics. **Recommended for lightweight knits and all unstable fabrics**. When done, cut away close to stitching.

8" x 75' roll – part number 141 000807

12" x 75' roll – part number 141 000800

Cut-A-Way™:

Use with **medium to heavier weight knits and sweatshirt fabrics**.

Recommended for lightweight knits and all unstable fabrics. When done, cut away close to stitching.

8" x 75' roll – part number 141 000544

12" x 75' roll – part number 141 000802

Sulky® Cut-Away Plus™:

Permanent, mid-weight, non-woven with a soft hand and excellent stability.

Provides great permanent stability to stitch **computerized embroidery designs, appliqués, and monograms on outerwear like jackets, sweaters and sweatshirts. Ideal for open-weave fabrics with a complex design**, high detail embroidery designs or dense designs.

20" x 36" package – part number 140 000149

7 2/3" x 9 yd roll – part number 140 000268

20" x 25yd bolt – part number 140 000150

Cut-A-Way Light™:

Use with *lightweight knits and stretch fabrics*, cut away excess stabilizer after completing embroidery. **Recommended for all lightweight knits and all unstable fabrics.**

8" x 75' roll – part number 141 000636

12" x 75' roll – part number 141 000801

Sulky® Cut-Away Soft 'n Sheer™:

Permanent, textured, non-woven nylon that is ultra-soft next to skin. Provides great permanent stability to stitch **computerized embroidery designs, appliqués, and monograms on lightweight knits and wovens**. Ideal for dense embroidery designs, open-weave fabrics, or lightweight fabrics with a complex design. **Ideal for Trapunto**. With excellent stretch resistance, Soft 'n Sheer eliminates pulling or sagging from the surrounding fabric not only during the stitching process, but also during washings and wearing.

20" x 36" package – part number 140 000147

8" x 11 yd roll – part number 140 000267

20" x 25 yd bolt – part number 140 000148

Tear Aways

Stitch & Ditch™:

Lightweight easy to tear away stabilizer for continuous machine **decorative stitches and heirloom sewing**.

3 ¼" x 225' roll – part number 140 000164

8 ¼" x 225' roll – part number 140 000163

Vilene® Tear & Wash™:

Presenting a premium quality lightweight stabilizer for **embroidery, appliqué and monogramming**. Once stitching is done, stabilizer tears away easily or machine wash to completely eliminate any left over stabilizer. More stable than film type wash away stabilizers and washes away more easily.

12" x 15 yd roll – part number 140 000924

Fuse N' Tear™:

A brand new iron-on tear-away stabilizer is now available. Fuse N' Tear is **ideal for knits, sweatshirt fabric, polar fleece, small items** and more. Fuse to fabric or garment with dry iron, then hoop. Tear away when done.

8" x 75' roll – part number 141 000821

12" x 75' roll – part number 141 000822

Totally Stable™:

Iron-on tear-away stabilizes virtually any fabric in seconds with no time-consuming pinning. Eliminates annoying shifting, sliding and puckering of material. Excess then tears away easily, leaving no sticky residue. **Ideal for appliqué, punch needle, quilt templates, monogramming, charted needlework and for pattern and template making.**

20" x 36" package – part number 7741

8" x 12 yd. roll – part number 140 000272

12" x 12 yd. roll – part number 140 000441

Tear-A-Way Black™:

No more little white 'pokies' on the back of your dark colored fabrics.

Recommended for stable fabrics - **denim, woven, cottons and blends**. Tear off when done.

8" x 75' roll – part number 141 000688

12" x 75' roll – part number 141 000803

Tear-A-Way White™:

Our most popular stabilizer. Has excellent body and strength for all types of embroidery on medium to heavy fabrics. Tears away easily. Recommended for stable fabrics - **denim, woven, cottons and blends**.

6" x 8" pack of 50 – part number 140 000733

12" x 15" pack of 50 – part number 140 000734
12" x 20" pack of 50 – part number 140 000735
8" x 75" roll – part number 141 000543
12" x 75' roll – part number 141 000803

Sulky® Stiffy™:

A crisp, firm tear-away. Use when ***satín stitching, monogramming, appliquéing and embroidering to prevent tunneling, distorting of stitches, and puckering of fabric.*** Provides great stability combined with effortless removal. Professional embroiderers use one, two or three layers as a backing to stabilize virtually any fabric.

20" x 36" package – part number 140 000145
8" x 11 yd roll – part number 140 000266
20" x 25 yd bolt – part number 140 000146

Tear-A-Way Light™:

A lighter tear away stabilizer perfect for ***embroidery on lighter weight fabrics.*** Recommended for delicate or lightweight fabrics.

8" x 75" roll – part number 141 000819
12" x 75' roll – part number 141 000820

Sulky® Tear-Easy Stabilizer™:

Provides great stability combined with effortless removal that doesn't pull, tear or distort stitches. Professional embroiderers use one, two or three layers of Sulky Tear-Easy to stabilize virtually any fabric. Each layer is then easily torn away separately to prevent the pulling, tearing or distorting of stitches that can occur when tearing away a single layer of a thicker heavier stabilizer. Ideal for ***appliqué, monogramming computerized embroidery, quilting, edge work*** and more.

20" x 36" package – part number 140 000051
8" x 25 yd roll – part number 140 000273
20" x 25 yd bolt – part number 140 000052

Heat Aways

Sulky® Heat-Away™:

Heat-Away is a special heat-sensitive woven fabric that disintegrates with a hot iron, and then brushes away easily. It's like muslin that vanishes. Heat-Away is easy to see through to trace designs onto it for easy stitching. Because it is woven and firm, it is easy to stitch on when creating Machine Arts. *Not compatible with liquids. Perfect for any project where wetting or tearing would cause distortion to stitches or damage to your base material. Ideal for spun lace, cut work, faux woven fabric, computerized embroidery, serger lace and 3-D appliqué.*

15 ½" x 22" package – part number 140 000018

8" x 5 yd roll – part number 140 000274

Clear-N'-Melt™:

Clear N'-Melt disappears with low setting on iron, no residue or excessive heat. ***Perfect for lace making, open work and nap fabrics. Works with all fabrics.*** Does not affect iron surface, residue rolls off.

8" x 75' roll – part number 141 000659
